Dear generous community supporter:

We are excited to announce that The Tommy Foundation (TTF) will be hosting our first masquerade ball on November 3rd at the Emerald Foundation in Lancaster, PA. Proceeds from this event will go towards our various activities we have during the holiday season for autism and related conditions. Please consider supporting us through a tax-deductible monetary donation that entitles you to several benefits as a sponsor, which are attached to this letter. We would also gladly accept in-kind donations of food platters or raffle items.

Tommy Foundation Holiday Activities

Your generous contribution will help The Tommy Foundation make the holidays special in our community. Every season, we try to provide as many events for our families that we can. During this time of the year, we provide crafts for individuals, sensitive Santa and school visits.

These are just a few of the family centered events we do :

Crafting with the kids: One of our many events we do each year is doing crafts with the children. Our Harvest Activity is a combination dress-up/ costume and craft day. Families and individuals get engage in a number of crafts we have set-up for them.

Sensitive Santa : One to one Santa experience for individuals with more profound needs and care and that alternatively could not take part in traditional Holiday experience. We are the longest running Sensitive Santa Program and the only one that caters to the need for many families to have this be 1:1.

School Visits : This year we are planning on visiting schools life skills and autism support classrooms during the holiday season

Your support will allow our organization to continue to serve the needs of families affected by autism in Central PA. It is also a marketing opportunity for your business and a platform for your business to demonstrate your commitment to community involvement in our area.

Please mail your check payable to: **The Tommy Foundation**

About Autism

1 in 68 children are affected by autism in the United States. Every 11 minutes a baby is born who will ultimately receive an autism diagnosis. In the United States alone the economic impact of autism is more than \$90 billion and is expected to double. There are limited to any real plans for those individuals that are grown up and are adolescents or adults on the spectrum as well since much of the focus is placed on the childhood piece of the condition.

If you would like to participate in our event, we ask that you please fill out the enclosed form. Feel free to contact me with any questions you might have.

Thank you,

Sugey Cruz-Everts
